

## REFILL SOUTH TYROL

The project Refill Südtirol Alto Adige provides information about points throughout South Tyrol where you can refill your own drinking bottle with fresh drinking water free of charge. These points can be public wells with drinking water quality, but also the taps of partner companies that join the Refill Südtirol Alto Adige campaign.

An interactive map with wells and refill stations can be found here: **[www.refill.bz.it](http://www.refill.bz.it)**
